‘Essentially, what Davis gives us here is an intensely human story that feels ripped from the pages of someone's personal diary, and then softened with expressively tender and graceful prose.’ ~ The Chocolate Lady's Book Reviews

‘Clever description, emotion without sentimentality and painstaking observation are the keys of this mostly enjoyable novel.’ ~ Alison Morton, Author

‘This is a novel about how our perceptions change, not only with time, but when those fragile layers of protection are peeled away and we see the truth for the first time. I thought the read was gently compelling, insightful and intelligent.’ ~ Bookworm, Oz
