

Short Horror Tales Series by Ian Thompson Collected Reviews

Glancing Blow:

★★★★★ **An excellent story.**

By [katie lewington](#) on December 29, 2015

This story has a beginning introduction that is a superb insight into the character and endearing him to us. The action comes swiftly and just as you think it's over the author, Ian Thompson, gives us a fresh and exciting twist. The end is satisfying and brings the story back around to where it began, in terms of the theme and focus of the character. This is thoroughly spooky, enticing and well written from start to finish.

This book is a compilation of parts of books. Thanks, Thompson, I was eating something & my stomach was revolted with the 1st story.

The description of the "thing" was so disgusting that even I got nausea. That means is great. I could feel the fear of that man & the relentless of that, ugh, that your mind create. Love it.

The rest of the stories where more of people running. But the 1st one compensated.

★★★☆☆ **The First Is The Best**, November 25, 2015

By [Liz Koch Cousins](#)

Verified Purchase ([What's this?](#))

This review is from: [Glancing Blow \(Short Horror Tales Book 1\) \(Kindle Edition\)](#)

The first tale was good, if a bit too long. The rest didn't really catch my interest.

I. Thompson says:

Initial post: Dec 1, 2015 1:00:42 PM PST

I'm the author & I find this review a little confusing! There is only one tale and it's around 9300 words long. The only other content is promotional samples for some of my full-length novels... So I don't understand "The First Is The Best".

Is it possible the reviewer is referring to someone else's collection of short stories? If not, they I am very happy they enjoyed the tale and for taking the time to review.

Hi @ianthompson1701 I read Chained.
Dam scary 5 Star story
I could write a review, because I don't have FB
Sorry about that

★★★★★ IGNITION: 1, 2, 3...DRAGON 🐉

By Masterl on March 3, 2016

Verified Purchase

When I began to read, I read genres that I used to clean my mind & fresh the eyes. (It works).

So, I began to read, hearing the crappy lives of the supervisor & the other two.

I notice: big warehouse (excessive flaws in security), the strange division of the place (even a child could play there).

I remember that when you want to hide something, just place it where everybody will see it & nobody will find it). Validate.

A Dragon (1st Dragons lately are like a star BOOM, they're everywhere in sci-fi, mythical, etc. I getting tired).

Then came this guy place the Dragon in our days with turn, twist an impossible hero & place a 2ble tape on my mouth.

Great short story. The character well develop, not super human. There's another surprise but if you want to know, buy the book.As I'm so forgetful I always post:

AN IMPORTANT POINT FROM MY PERSONAL VIEW: Indie Authors doesn't had a troupe of people behind them (like when you had a Publish House, PR, etc).

They had to work hard to publish their books for themselves. They're the future of literature. Let's help them.

I received this book in exchange for an honest review. I'm a reader of many years and I'm in for: Read, Revise & Review.

I'm honest for me, other readers & authors. If you don't do that & reach the authors how we can had better books?
